

α special place caring for people with
severe dementia in a quiet residential
area of North Bournemouth

Care South residential care

We know that selecting a care home can be a difficult decision. The information below aims to help you understand why Leybourne House is the right choice for high quality care delivered within a safe and caring environment. You are bound to have questions so please feel free to ring us to discuss any queries you may have or why not pay us a visit and see how Care South can help with your care needs.

At Leybourne House we provide high quality dementia care within a safe and caring environment for people who are no longer able to live independently. We look after both men and women with all stages of dementia within an environment where residents can live their lives as if in the comfort of their own home, but cared for by dedicated staff, trained to nationally recognised standards.

We have 41 single rooms spread over two floors mainly for men and women

aged 65 and over with low, medium and high care needs. We provide specialist 24 hour personal care for all aspects of daily living by our staff who have a wide understanding of dementia care and are able to work with residents at different stages of dementia using innovative care programmes.

Following full assessment prior to admission of each individual, lifestyle preferences and activities will be discussed with each resident and their family.

While we have the very best

in care and facilities, the key to our residents' happiness is how it's delivered. So, within our "home from home" environment, we provide individual care with privacy, dignity and respect in an atmosphere of reassurance, warmth and affection.

To deliver this level of care and support we have wonderful staff who are dedicated to the happiness and wellbeing of our residents.

There are many additional facilities and services designed to make life as

pleasurable as possible at Leybourne House. We have three light and spacious lounges, dining rooms and a conservatory, as well as several other communal areas and a beautifully landscaped garden. All these areas provide space for peace and reflection as well as social interaction.

We have an in-house laundry service, visiting hairdresser and a chef who prepares a wide choice of meals, snacks and drinks as well as catering for special dietary needs. In other areas of everyday life we

provide assistance with dentists, opticians and chiropody.

Clergy from the United Reform Church visit us every third Tuesday to conduct a service for those wishing to participate. We have a small trolley shop providing basic essentials and trips to the local shops in Kinson Road can easily be arranged. In addition we have links with the local branch of the Alzheimer's Society and offer families support and advice throughout their relative's stay.

We know our residents enjoy a wide variety of entertainment and our full calendar of activities is too great to list here! In addition we do a lot of small group sensory activities, such as smelling perfumes, playing instruments and tasting sessions. We have a daily theme which provides meaningful interaction between our staff and residents.

Please come and visit us at Leybourne House and experience our unique and caring approach for yourself.

If you are looking for a residential and dementia care home where dignity, respect, laughter and happiness are central to the philosophy of care then call the Home Manager on 01202 574426.
