

a residential home with
a warm and welcoming
atmosphere in Weymouth

Care South residential care

We know that selecting a care home can be a difficult decision. The information below aims to help you understand why Buxton House is the right choice for high quality care delivered within a safe and caring environment. You are bound to have questions so please feel free to ring us to discuss any queries you may have or why not pay us a visit and see how Care South can help with your care needs.

Buxton House is a purpose built residential care home where the staff work together to meet the residents' needs. Buxton House is a light and airy home on the outskirts of Weymouth, close to the elderly care units of Weymouth Hospital.

If you are seeking long term residential care or require a short period of rehabilitation, we have 64 en suite single rooms spread over two floors providing permanent care for 48 physically frail older people with low, medium and high care needs. There

are also 16 intermediate care beds for people who require a short period of rehabilitation. We provide specialist 24 hour personal care for all aspects of daily living by our dedicated staff who are trained to nationally recognised standards.

Following full assessment prior to admission of each individual, lifestyle preferences and activities will be discussed with each resident and their family.

While we have the very best in care and facilities, the key to our residents' happiness is how the care

is delivered. So, within our "home from home" environment, we provide individual care with privacy, dignity and respect in an atmosphere of reassurance, warmth and affection.

To deliver this level of care and support we have warm and friendly staff who are dedicated to the happiness and wellbeing of our residents. Additionally, our rehabilitation clients will be supported by a dedicated team including a nurse practitioner, physiotherapist and occupational therapist.

There are many additional facilities and services designed to make life as pleasurable as possible at Buxton House. Divided into four wings, each accommodating 16 residents, with its own spacious lounge/diner and kitchen area. There is a quiet lounge on the ground floor and small seating areas in the corridors so residents can choose where to spend their time. We have a lovely courtyard and landscaped garden which are fully secure and our residents make great use of these whenever the weather permits.

We provide an in-house laundry service, hair salon with visiting hairdresser and our chef, Alex Every who was awarded Care Chef of the Year 2007, prepares a choice of meals, snacks and drinks as well as catering for special dietary needs. In other areas of everyday life we provide assistance with dentists, opticians and chiropody.

We have regular visits from local clergy of different denominations and Buxton House is within close reach of many churches. We run a small library and have a selection of books available.

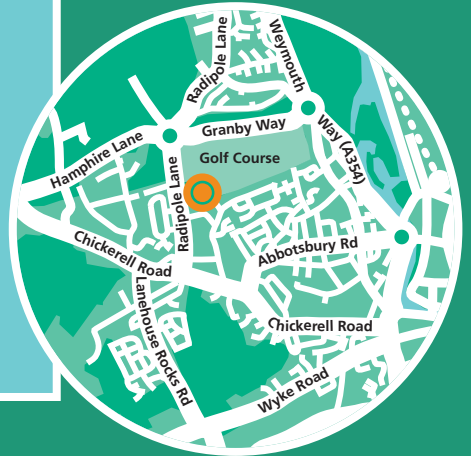

There is a small trolley shop providing basic essentials and trips to the local shops can be easily arranged.

We know our residents enjoy a wide variety of entertainment and our full calendar of activities is too great to list here. However, it includes weekly bingo and quiz nights, beauty and music sessions, occasional minibus trips, coffee mornings and arts and crafts mornings.

Please come and visit us at Buxton House and experience our unique and caring approach for yourself.

If you are looking for a residential care home where dignity, respect, laughter and happiness are central to the philosophy of care then call the Home Manager on 01305 760834.
